

Compliance Advisory Service

Achieve and maintain critical regulatory compliance with tailored strategies, technical guidance, and security solutions designed to meet standards like GDPR, PCI DSS, DORA, and more.

With shifting regulations and security standards, ensuring compliance is crucial for safeguarding sensitive data and maintaining business integrity. Our Compliance Advisory Service helps organizations align their security practices with industry regulations and best practices.

Without a comprehensive **compliance strategy**, organizations risk:

Legal and Financial Risks

Failing to comply with regulations like GDPR, PCI DSS, or HIPAA can result in significant fines and legal issues.

Security Vulnerabilities

Insufficient security measures leave organizations open to cyber-attacks, data breaches, and unauthorized access.

Operational Inefficiencies

Misalignment of security practices with compliance requirements can cause disruptions and inefficiencies in business processes.

What's Possible with Compliance Advisory Service?

By partnering with Encryption Consulting, you can enhance your organization's compliance posture while maintaining security across all operations. A strategic compliance approach doesn't just help you meet requirements but transforms your business for long-term resilience. With our Compliance Advisory Service, you gain:

- ✓ A clear roadmap for aligning your security controls with global regulatory frameworks like GDPR, PCI DSS, HIPAA, and NIST standards.
- ✓ A tailored approach to identifying gaps in your compliance and implementing corrective actions to streamline audits and regulatory reporting.
- ✓ Improved governance and risk management practices, with tailored solutions that ensure your policies meet the latest compliance guidelines.
- ✓ Continuous monitoring and proactive management of regulatory updates to maintain compliance and prevent penalties.

Why Leading Enterprises Choose Encryption Consulting?

Trusted by 185+ global customers, including 100+ Fortune 500 companies

Delivered 500+ encryption and cybersecurity projects across 25+ countries

96% customer retention rate driven by long-term encryption advisory partnerships

Achieved 90% customer satisfaction across cybersecurity and cryptographic services

Rated 4.9/5.0 on Gartner Peer Insights for Encryption Consulting services

Led by consultants with 20–30 years of deep expertise in applied cryptography

Built 600+ encryption governance frameworks aligned with GDPR, PCI DSS, HIPAA, NIST, and ISO 27001 standards

Conducted 400+ custom workshops and knowledge transfer sessions, training 5,000+ security professionals

Your Compliance Roadmap

Our Compliance Advisory Service follows a structured roadmap, guiding organizations from initial policy evaluation to detailed strategy development and implementation planning. This proven approach ensures that your encryption practices and compliance measures are fully aligned with industry standards, regulatory requirements, and security best practices, laying a strong foundation for future resilience.

Policy Review and Current State Assessment

Identify existing encryption capabilities, limitations, and overall security environment

Gap Analysis and Workshops

Assess current policies against industry standards, conduct workshops to gather insights, and capture critical information through targeted questionnaires

Strategy and Roadmap Development

Define necessary improvements, align encryption practices with compliance needs, and develop a prioritized action plan

Implementation Planning and Support

Establish a clear plan for implementing enhancements, aligning with compliance requirements, and strengthening the data security environment

Detailed Findings and Recommendations Report

Deliver a comprehensive report summarizing assessment results and providing actionable recommendations

Our Comprehensive Compliance Advisory Services
